

A Mini Pictorial Tour

OF

ST JOSEPHS HOME FOR CHILDREN

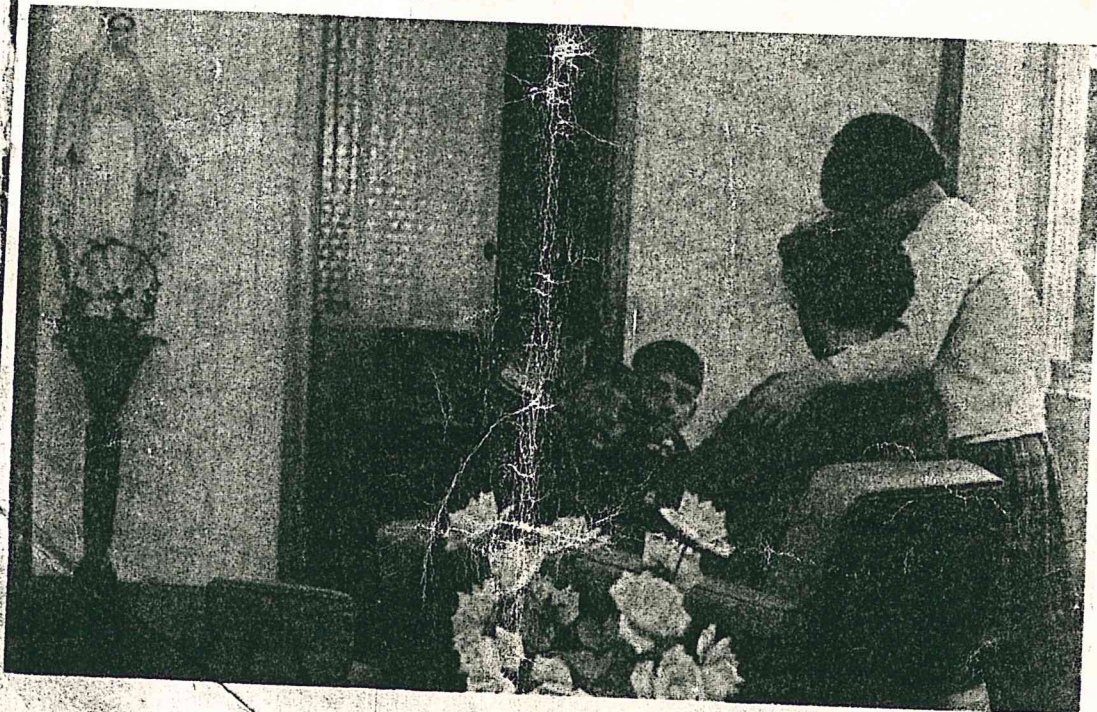

34 LIVERPOOL ROAD
CROYDON

A NORMAL LIFE FOR EVERY CHILD

In affluent — yet sometimes apathetic — Australia in spite of Federal, State and Local Government welfare programmes, there are many children suffering the distress and misery of mind that follows abandonment, neglect, broken homes and family tragedy. Although most adults have the human feelings of compassion and sympathy something concrete must be done for these children.

St. Joseph's Home approaches, as nearly as an institution possibly can, a normal family home. In their dealings with the children, the sisters are much the same as a mother. The sisters give their labour, their very lives, so that their work may be of value to the community. They who give so much look to you for the help that will enable them to give to the less fortunate the advantages of the work they are doing in this home.

MOTHER VISITS HER HOMELESS

Hullo

Would you like to visit us at St. Joseph's some time? Sister says that you would be very welcome, and we would be glad to show you around. St. Joseph's is really a nice place — but come and see for yourself. Don't forget!
